ACCOMMODATION AND EXPERIENCES

3

Location

A blue sky allows the sun to shine for more than 320 days a year, illuminating the crystal clear water of our beaches and the green of the fertile plain, with the imposing Sierra Nevada as a backdrop.

Practice golf, water sports, taste a skewer in the beach bars, or simply relax and let yourself be carried away by the sound of the sea, on our beaches there are alternatives for all tastes.

Location

In no other place in the world can you enjoy a landscape with these characteristics.

The privileged geographical conditions that we want give us a **unique subtropical climate in Europe** and the possibility of going from sea level to 2,000 meters of altitude, walking along routes and trails with spectacular views.

Location

The Tropical Coast of Granada offers us a multitude of possibilities. From small coves full of charm to extensive beaches where the family character prevails, full of activities to enjoy.

The high level of equipment and services provided is also reflected by the prestigious quality certifications they have.
